

# Joulepoint Home Charger Mobile App

Smart EV Charging Control from Your Phone

The Joulepoint Home Charger App puts total control at your fingertips. Start, stop, and monitor your charging, adjust power, schedule sessions, and track energy usage in real time.

Built for reliability, key features continue to work over your home Wi-Fi—even during internet outages—so you're always in control.

“Your EV charger in your pocket.”

Simple, **safe** and **dependable** for real homes.

### 1. Start / Stop from Phone

Begin or end charging instantly from anywhere on your home Wi-Fi.

### 2. Works on Home Wi-Fi

Reliable control on your local network—no cloud required.

### 3. Offline Local App Mode

Key features continue working even when the internet is down.

### 4. Live Charging Status

Real-time updates on power, energy delivered, duration and cost.

### 5. Charging Power Control

Adjust charging power to suit your needs and home capacity.

### 6. Smart Schedule

Set schedules to charge off-peak and save on electricity costs.

### 7. Home Load Guard

Protect your home from overload with intelligent power management.

### 8. Energy Tracking

Track energy usage and costs with clear history and insights.

## Charger Model Styles

Even if your broadband is down, your home charger  
remains **smart** inside your home Wi-Fi network.

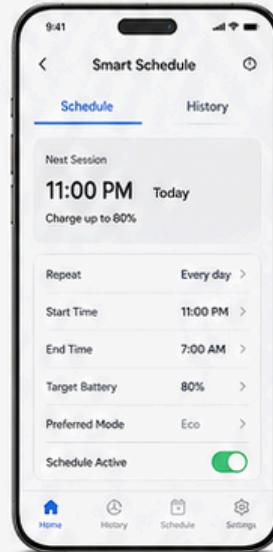

## Home App Screens

1 Charger Home

2 Live Charging

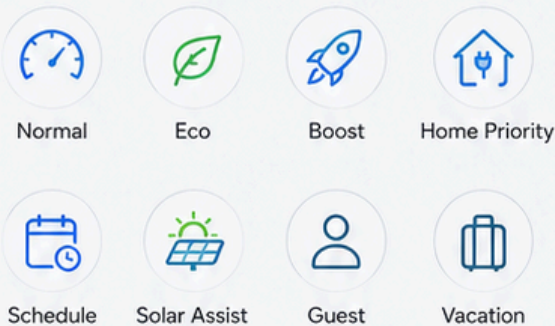

3 Smart Schedule

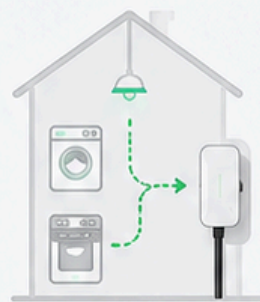

4 Home Load Guard

## Charging Modes

## Home Load Guard

Home Load Guard helps protect your household  
by automatically adjusting charging power.  
When home appliances use more power,  
the charger slows down.  
When spare capacity returns, it speeds up again.

Home Safe Limit	7.0 kW
Current Home Usage	4.5 kW
Available for EV	2.5 kW
Status	Protecting Home Supply

# Smart Features for Everyday Charging.

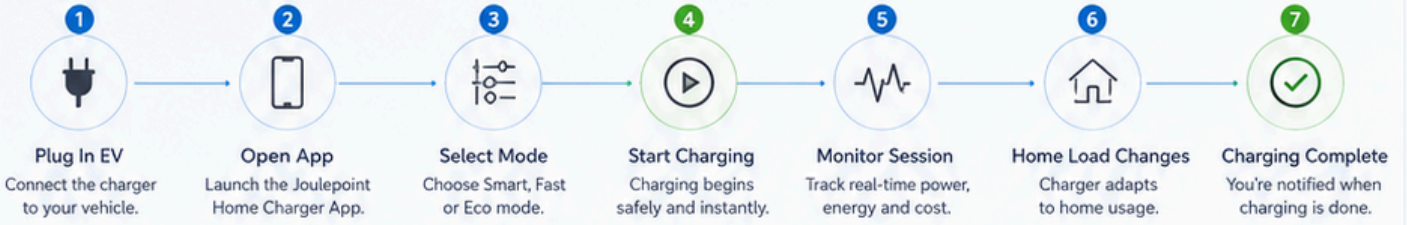

The Joulepoint Home Charger App gives you complete control, real-time insights and peace of mind — at home or away.

## More App Benefits

Estimated Charging Cost	Family Sharing	Optional RFID Management	Safety Alerts
Power Cut Recovery	LED Brightness Control	Privacy Mode	Monthly Cost View

## Simple User Journey

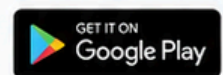

## One Platform. Multiple Styles.

**A smarter home charger, controlled from your phone.**

Wi-Fi connectivity, offline local control, smart schedules, charging history, safety alerts and automatic home load protection.

Joulepoint Home Charger App — simple for daily use, smart for energy savings, and reliable even when your internet is not.
